## REQUEST FOR INFORMATION ON USE OF ICPSR RESOURCES

To provide funding agencies with essential information about use of archival resources and to facilitate the exchange of information about ICPSR participants' research activities, users of ICPSR data are requested to send to ICPSR bibliographic citations for each completed manuscript or thesis abstract. Please indicate in a cover letter which data were used.

## DATA DISCLAIMER

The original collector of the data, ICPSR, and the relevant funding agency bear no responsibility for uses of this collection or for interpretations or inferences based upon such uses.

## DATA COLLECTION DESCRIPTION

United States Department of Health and Human Services. National Center for Health Statistics

NATIONAL SURVEY OF FAMILY GROWTH, CYCLE V, 1995 (ICPSR 6960)

**SUMMARY:** The NSFG Cycle V interviews have been divided into two files. The Respondent File (Part 1) contains one record for each woman in the survey, while the Interval File (Part 2) contains one record for each completed pregnancy experienced by a woman in the survey. An interval can be defined as one of the following: the time between a first intercourse at last contact (in 1988) and a pregnancy that ended after last contact, or the time between a pregnancy that ended before last contact and one that was in progress at the time of the interview. Part 1 offers data on respondents' marital histories, education, family background, sex education, births and pregnancies, first sexual intercourse, sterilizing operations, contraceptive histories, family planning services, infertility services, births -- intended and unexpected, adoption, sexually transmitted diseases/AIDS, religion, race/ethnicity, employment/occupation, income, and insurance. Part 2 supplies data on outcomes of pregnancies and other pregnancy-related information, use of birth control methods during intervals, and "wantedness" of pregnancies.

**UNIVERSE:** The civilian noninstitutionalized population of women 15-44 years of age in the United States, regardless of marital status.

**SAMPLING:** A national probability sample of 14,000 women aged 15-44 was chosen from households that had participated in NATIONAL HEALTH INTERVIEW SURVEY, 1993 (ICPSR 6534). Black and Hispanic women were oversampled.

**NOTE:** (1) Data for CYCLE I, 1973 (ICPSR 7898), CYCLE II, 1976 (ICPSR 7902, 8181), CYCLE III, 1982 (ICPSR 8328), CYCLE IV, 1988 (ICPSR 9473), and CYCLE V, 1990 TELEPHONE REINTERVIEW (ICPSR 6643) are also available from ICPSR. (2) Per agreement with NCHS, ICPSR distributes the data files and text of the technical documentation for this collection as prepared by NCHS. (3) The codebooks and user guide are provided as Portable Document Format (PDF) files. The PDF file format was developed by Adobe Systems Incorporated and can be accessed using PDF reader software, such as the Adobe Acrobat Reader. Information on how to obtain a copy of the Acrobat Reader is provided through the ICPSR Website on the Internet.

RESTRICTIONS: In preparing the data files for this collection, the National Center for Health Statistics (NCHS) has removed direct identifiers and characteristics that might lead to identification of data subjects. As an additional precaution NCHS requires, under Section 308(d) of the Public Health Service Act (42 U.S.C. 242m), that data collected by NCHS not be used for any purpose other than statistical analysis and reporting. NCHS further requires that analysts not use the data to learn the identity of any persons or establishments and that the director of NCHS be notified if any identities are inadvertently discovered. ICPSR member institutions and other users ordering data from ICPSR are expected to adhere to these restrictions.

Many women have times when they are not having intercourse at all, for example, because of pregnancy, separation, not dating anyone, illness, or other reasons. Since (January 1991/the first time you had (voluntary) intercourse), have there been any times when you were not having intercourse at all for one month or more?

Inapplicable:

Did you use those methods together,  
that is, at the same time, or did you  
use them at different times during the  
month? (MC3)

Inapplicable:  
R never had sex as of this month and  
never used a birth control method as  
of this month but ever used one or  
more birth control methods in EA  
series (WNFSTSEX GE 1093 and DATFIRSM  
GE 1093 and computed variable EVERUSED  
= 1); R never had sex and said no,  
don't know or refused to all birth  
control methods in EA series (computed  
variable RHADSEX coded 2,7,8 or 9 and  
computed variable EVERUSED = 2); R  
said no, don't know or refused to all  
birth control methods in EA series  
(computed variable EVERUSED = 2); R  
did not use multiple methods in the  
month; R used more than 2 methods in  
the month.

Did you use those methods together,  
that is, at the same time, or did you  
use them at different times during the  
month? (MC8)

Inapplicable:  
R never had sex as of this month and  
never used a birth control method as  
of this month but ever used one or  
more birth control methods in EA  
series (WNFSTSEX GE 1093 and DATFIRSM  
GE 1093 and computed variable EVERUSED  
= 1); R never had sex and said no,  
don't know or refused to all birth  
control methods in EA series (computed  
variable RHADSEX coded 2,7,8 or 9 and  
computed variable EVERUSED = 2); R  
said no, don't know or refused to all  
birth control methods in EA series  
(computed variable EVERUSED = 2); R  
did not use multiple methods in the  
month; R used more than 2 methods in
